

FIRST APPOINTMENT

Your first visit to our office will be about 1½ hours in length. You will first watch a 35 minute video by Dr. Pepi that gives you information about health and your body. It also gives you information about how Dr. Pepi works. After the video, you will spend about 30 minutes with Dr. Pepi. She will go over your medical information and paperwork with you. Next, she will check your body and start treatment. Finally, Dr. Pepi will write a program for you to follow oriented toward your stated health goals. The fee for this visit is \$200. This doesn't include supplements, as they vary from patient to patient. The supplements vary in cost depending on how much of a supply you purchase. We accept cash, check, Visa or MasterCard.

INSURANCE

We do not accept insurance as a form of payment. We will fill out the receipt necessary for you to send to your insurance company for reimbursement. NOTE THAT WE DO NOT TAKE WORKER'S COMPENSATION OR MEDICARE AT ALL. (Worker's comp is insurance for injuries on the job.)

FRAGRANCES

Due to the allergies of some of our patients, it is VITAL that you do not wear anything that is fragrant such as perfume, cologne, hairspray, scented soap, scented aftershave, lotion, deodorant, styling gel, shampoo or after-bath splash. This applies to any clothes that have not been laundered since using scented products. Most scents, fragrances and perfumes are made from coal tar (a toxic waste product from processing petroleum.) In animal lab tests, coal tar products have caused cancer. Also, regular use of perfumes can diminish the sense of smell to the point where a perfume can seem to have no smell at all. Healthier scents can be found at health food stores and are made from natural oils.

It is better to check the labels of products you use and choose those that do not list fragrances among their ingredients. This also applies to anyone that comes with you to the office. If you would miss scented products, please try the ones we sell here. We have found a few, such as almond soap, that have mild natural scents that most patients find do not cause a problem.

CANCELLING YOUR APPOINTMENT

We require a 24-hour notice in order to cancel or change this appointment.
